

## **TABLE OF CONTENTS**

### **1. Executive Summary**

### **2. Plan Overview**

### **3. Introduction**

- 3.1. History of Port of Oakland
- 3.2. Overview of seaport operations
- 3.3. Overview of stakeholders
- 3.4. Overview of the MAQIP and Development Process
  - 3.4.1. Context
  - 3.4.2. Scope and intent
  - 3.4.3. Guiding principles, goals, and objectives
  - 3.4.4. Public Participation

### **4. Background**

- 4.1. Overview of Ambient Air Quality
  - 4.1.1. Regional
  - 4.1.2. Local
- 4.2. Emission sources at the Seaport
- 4.3. Pollutants and their impacts
  - 4.3.1. Criteria air pollutants
  - 4.3.2. Toxic air pollutants
  - 4.3.3. Human health exposure, risk, and other impacts
- 4.4. Regulatory and policy efforts
  - 4.4.1. California Goods Movement Action Plan
  - 4.4.2. CARB Emission Reduction Plan for Ports and Goods Movement in California
  - 4.4.3. Air quality regulations affecting Seaport operations
  - 4.4.4. CARB West Oakland Human Health Risk Assessment
- 4.5. Past and current seaport air quality improvement initiatives

### **5. Quantifying Emissions and Human Health Risk**

- 5.1. Baseline emissions
- 5.2. Future seaport activity
- 5.3. Projected emissions
- 5.4. Relationship between emissions and human health risk

## **6. Seaport Air Quality Improvement**

- 6.1. Seaport quantitative performance objective
  - 6.1.1. Diesel PM
  - 6.1.2. Others
- 6.2. Overview of major emission reduction strategies
  - 6.2.1. Source control
  - 6.2.2. Operational efficiencies or changes
- 6.3. Continuing seaport air quality improvement initiatives
- 6.4. Future candidate initiatives for seaport air quality improvement
  - 6.4.1. Screening Criteria
  - 6.4.2. Potential initiatives
  - 6.4.3. Committed initiatives to date

## **7. Implementation**

- 7.1. Application of performance objectives
- 7.2. Assignment of responsibility
- 7.3. Methods for prioritization and selecting initiatives
  - 7.3.1. Feasibility
  - 7.3.2. Other criteria and guidelines
- 7.4. Funding
  - 7.4.1. Needs
  - 7.4.2. Mechanisms
- 7.5. Timeline

## **8. Monitoring and Reporting**

- 8.1. Monitoring Relative to Baseline
  - 8.1.1. Emissions
  - 8.1.2. Risk
- 8.2. Other monitoring
- 8.3. Reporting mechanisms and frequency
- 8.4. Assignment of responsibility
- 8.5. Feedback with stakeholders

## **9. Acknowledgements**
